Bundle 28 – French Home & Garden Plants: Bundle 28 comes with 15 trees and shrubs in 3D for gardens, landscapes, and general landscaping needs, specifically for France, with 74 original photos of high-quality 3D models, which come in a variety of types that can be used to create a variety of scenes. 3DS MAX BLENDER, CINEMA 4D, and SKETCHUP formats allow you to make little effort to import and render your projects or scenes, and with the GrowFX formats, you get the most flexibility to modify the plants as you want.

How to use FBX format files that contain all textures?

You can use "Globe Plants – Bundle 28 – French Home & Garden Plants".

Where can I download the product?

After subscription, You can download it for free from here.

The models were created with the most excellent possible quality and accurate representation of species used in Corona Renderer, VRay Renderer, and FStorm Renderer in 3D Max.

Our FBX format files contain all textures, which can be added to any other software.

Our SketchUp file type is compatible with three rendering engines: VRay, Thea, and Enscape, including proxy files. SketchUp is entirely suitable for Skatter. VRay 5 is compatible.

Users can choose Blender, Cycles, and Cinema 4D with VRay 3.6 and Corona Renderer.

The models we use for MESH models need 3Ds Max 2018 and higher and a minimum of Corona 3.0, VRay 3.6, and Form 1.35. We also support the entire Forest Pack library for all three renderers.
