Videohive Transitions V3 21861548 - AE Project:

Updating 3.0

- They added the 155 transitions
- All transitions are now adaptive resolutions on screens.
- The sound FX was added to the Seamless, Glitch, Lens Flare transitions
- optimized footage (project size ranging from 1000MB to 600MB)
- Fixed script errors in AE 2019 - Fixed minor bugs

All transitions are able to work without having to create Media Placeholders. The only requirement is to place the transition over the layer that contains the video. Press several buttons, and you are ready.

Utilizing the transitions you can reduce your time and achieve an excellent outcome! They are easy to use and are suitable for many different tasks. This project includes lower Thirds!

- The ability to use the program in Adobe After Effects
- The ability to use Premiere Pro (Adobe Dynamic Link)
- More than 550 transitions and more than 30 categories
- Shape transitions/ Color and Glass
- Transitions seamless
- Glitch-like changes
- Lens flare changes
- Transitions in Ink
- Paint transitions Brush transitions
- Particles transition
- 24 Lower thirds
- Color & FX Controls
- Works regardless of resolution.
- After Effects CS6 and Above
- Video tutorial included
- No plug-ins are required
