The Unity Asset - Medieval Mega Marketplace is a comprehensive package featuring hundreds of props to create various market tents, workshops, stalls, and crafting tables.

How to create different market tents, workshops, and booths for project design?

You can use "Unity Asset - Medieval Mega Marketplace" to design your project.

The package includes 354 modular prefabs categorized into items like barrels, crates, chimneys, cookers, furniture, and more, each with low to medium polygon counts, ensuring efficient performance. Each mesh includes levels of detail (LODs) for optimized occlusion. The package provides pre-built modules for crafting scenes, such as blacksmiths, woodcutters, bakers, and various sellers, with customizable and rearrangeable prefabs to fit diverse creative needs.
