- Pinhel Travel_ Greece. template
- Pinhel Travel_ Italy. template
- Pinhel Travel_ Morocco. template
- Pinhel Travel_ NewYork.template

Pinhel Travel - New York is undoubtedly one of my tops presets, offering the entire palette of the sober colors of New York's urban style. Set your temperature so that you can create different shades and styles.

Pinhel Travel - Greece This preset captures Greece's uniqueness, the sun's light in the buildings, the warm hues, and the strength of the vast blueness. It's ideal for photographs with natural, direct lighting, preserving gorgeous skin tones and accentuating the beauty of the sea.

Pinhel Travel - Italy is the most retro preset in this collection (and the one I was most excited about making my favorite)! This one is warm and inviting in the right proportions while keeping the colors vibrant, even though it's totally in the spirit of films and cameras of the past.

Pinhel Travel Morocco - When I think of Marrakesh, I can precisely recall this palette's hues: beige, rose, and gold. It's great for all lighting conditions and has a highly distinctive personality.
