

Aescripts Layer Repeater 2.5 free plugins full version

2025-02-10 16:50:18 label 我要反馈 下载页面

Easily Reestablish offsets in Distance and time to get numerous layers

There's now a variant 2.5 of all **Layer Repeater**.

This version no more Requires administrator access after installation!

You may have:

jsxbina folder called layer_repeater_effects

Just copy either to your ScriptUI Panels directory (program or consumer) and resume After Effects

This variant also Contains an ability to undo the stacking arrangement of the layers

Directions:

1. Run the script in the Windows menu
2. Choose the layer you need to replicate
3. Decide the number of layers that you want to Create a replica of
4. Choose If You Would like the layers to possess 3d possessions or not
5. Click on Layer Repeater GO!!!

There will be a Makeup set up of this coating you desired replicated

There Are also a null additional to a essay with controllers to impact the Replicated layers

You'll have the ability to animate counter and arbitrary parameters of several layer Anchor Point:

Position

Rotation

Scale

Opacity

Cartoon Through time using a frame counter

Included in the download are all Full descriptions of all of the properties which **Layer Repeater** may restrain.

- Adding button
- No more have to be Admin to set up.
- Additional checkbox to reverse sequence of coating stacking
- Performance update. Added an energetic checkbox for"Random"
- If you do not need arbitrary Quantities, then disable it Everything will do quicker
