Earth Tone Presets – Thepresetfactory: Faded, earthy tones Developed to replicate the colour Palettes of character.

'Earth Tones' is a collection of photography presets for your Adobe Lightroom® package and Photoshop® Adobe Camera Raw. The Earth Tones presets Are characterized as improving the color palettes of character and producing a Faded aesthetic ideal for Wedding, Outdoor, Lifestyle, and Travel photography. The collection includes 14 Earth Tone presets and 4 fundamental correction presets.

Insert a classic, nostalgic look into your photography.

The hot, faded aesthetic of this Earth Tones presets adds a Nostalgic, ageless look to your own photography. The collection includes both Warm and cool presets to match a number of shots - warmer presets add personality To your picture, or it's possible to accent the chilly outdoors together with the cooler blue presets. The set below is an interactive gallery of pictures showing the Effects of the presets on RAW images from a selection of cameras.

Cross-platform presets made for Lightroom Desktop and Lightroom Mobile.

Whether you are shooting a professional camera using Your smartphone, we have made these presets to operate on pictures from cameras And tablets equally. Seamlessly switch between editing in your Lightroom Desktop applications or Lightroom mobile program, with no gap in quality or Colour.
