UI Timers & Countdowns I MOGRT for PR VH-37499786: Create an animated timer for your UI or countdown that can last up to 2 hours in total. Choose from three formats (HH:MM:SS) and set the duration, and then specify one of the two options you would like to utilize -the **timer** as well as a **countdown**.

Inside, you'll find 13 gorgeously UUI-designed counters and countdowns that can easily be edited and personalized. Change the duration, type and font settings, element dimensions, colors, elements location, and so on. The templates are built on code, so you are able to modify any of the elements at any point in the video's production. There is no requirement to render the video again.

- Two hours or more in total
- Code-Based
- Easy Resizable
- Auto Adjustable
- Eye-Catching Design
- Simple to use and Flexible
- Essential Graphics Panel that has all Options Onboard
