It is the LKO Sierra collection all about simplicity and timelessness and still gives your images the natural, nostalgic appearance that LKO is known for. As a photographer, I've come to my conscious that I like to edit much more quickly and efficiently than I did before. I'd like my photographs to last a long time, remain the same in my edit style, and not waste long on editing. This is the reason I created this brand-new collection. The presets are soft and easier to use and extremely adaptable to any lighting as well as the camera. I tested them in extremely low and harsh light levels to ensure that all possible scenarios for photoshoots are fully covered.
