Domestika – Secrets of Photomontage and Creative Retouching: Discover professional techniques for composition, retouching, and lighting in photography with Carles Marsal, a graphic designer specializing in matte painting. Through this course, Carles unveils his tricks and methods to seamlessly blend various elements in a photomontage, resulting in highly realistic artwork.

Learn to craft compelling compositions, adeptly blend and retouch elements, and infuse your projects with an authentic appearance that captivates even the keenest eye, utilizing the array of photomontage tools Carles offers.

Immerse yourself in photo retouching, honing your skills with layers, masks, and brushes in Photoshop. If you're new to this technique, consider exploring Carles's introductory course, "Matte Painting: Creating Photorealistic Worlds," where he guides you through crafting imaginary worlds with a photorealistic finish from scratch.

What You'll Learn in this Online Course:

- 14 lessons & 7 downloads
- Project: Undertake your photomontage project from inception to completion or refine an existing one, employing the new skills and techniques acquired during the course.
