BLUELUTS – Pack 3 – The Cine LUTs:

LUTS designed particularly for Sony CINE profiles.

This bunch Comprises that the Tahoe LUT!

A bunch of 10 distinct .cube LUTs designed together with your CINE footage from the mind. All these luts WILL work together with other"horizontal" camera enthusiasts, nevertheless, they Are created for Cine4 and Cine2 so results can change and additional alterations May be required. They've been thoroughly analyzed on Sony Cine4 and Cine2 image profiles.

Much like LUTs, these LUTs are made only to be Utilized as a foundation for your Color correction. Since every clip is exceptional, no LUT will be a One-size-fits-all solution to your complete video.
