**Artist Studio Watercolor Actions (ATN):** With just a few clicks you can convert your photos into stunning sketching studies in ink and watercolor. Twin brush Artist Studio Watercolor Actions Twinbrush Artist Studio Watercolor Actions come with two different actions. One of them mimics the look and feel of an elegant watercolor sketch and the other is like a more gritty comic-style illustration using ink and watercolor.

**authentic** The two actions use custom Photoshop brushes, which are made by taking real-world, conventional markings, which add to the authenticity of the result. The brush strokes and washes drop, daubs, and splatters all are included to create a rich and multi-layered texture.

The process is randomly arranged, which means that each time you execute the procedure you'll receive an outcome that is unique.

**Change the look** After the action has finished the layers are clearly and logically grouped with the ability to control the quality of the various markings, splatters, colors, and lines.

**Easy to use** Create a new layer, then brush it over the approximate area you'd prefer to have the effect applied, and then press play!

Note that the actions work best with big images (minimum of 2000 pixels across the longest edge). Ideally, something in the range of 3000px to 5500px is the ideal size.
