Reallusion – 2nd Generation Hair – HAIRSTYLE 1&2: Discover Reallusion's 2nd Generation Hair - Hairstyle 1&2, an innovative collection featuring two distinct hairstyles with advanced design elements and animation capabilities.

Each hairstyle includes four meticulously crafted hair components with smart shaders, including flow maps, root maps, and color ID textures, ensuring visual excellence and customization options.

How to design hair components?

You can use "Reallusion – 2nd Generation Hair – HAIRSTYLE 1&2".

Highlights of Hairstyle 1:

- Animable braid feature, enabling seamless animation through morph sliders or dynamic hair function activation with a spring effect.
- Optimized for efficient use of computer memory, minimizing file size without compromising quality.

Highlights of Hairstyle 2:

- Offers diverse styles and physics, allowing for versatile mixing and matching with other Realistic-Looking (RL) hairstyles.

Experience the pinnacle of virtual hair design with Hairstyle 1&2, setting new standards in realism, dynamic animation, and customization for virtual hairstyles.
