Honolulu is a charming hand-drawn typeface with four different styles:

- Fill, regular, and without filled
- Additionally, there are jumpy versions of every font (accessed through the contextual alternative button).

Each font includes:

- Two caps in two sets
- Punctuation and numbers
- Multilingual support

The fresh and vibrant colors are perfect for summer months, and in any style that requires a striking hand-drawn style, such as postcards, notes, branding, quotes, logos, and other designs.
