Learn To Create Leaf, Petal & Stem Brushes: This class focuses on making Leaf and Petal Brushes within the drawing program Procreate.

This is a class for beginners, and even if you're unfamiliar with Procreate, you can follow along perfectly and make beautiful illustrations and brushes using these brushes.

Brushes that we'll create during the class:

- Leaf Brushes - 2
- Petal Brushes - 2
- Stem Brushes - 2

Projects that we will be working on during this course:

- Pattern 1
- Pattern 2
- Pattern 3
- Sunflower Illustration
- Floral Lettering (Timelapse & Examples)

Brushes and illustrations created by these brushes may be employed in many different ways. Here are a few illustrations:

- Surface Pattern Designs
- Art Prints
- Stickers
- Creating Patterns
- Personal Projects
- Selling brushes online on platforms such as Marketplace

The course teaches, you'll learn to

- Customise and create brushes using Procreate.
- Create patterns using these brushes
- Create drawings using these brushes
- Techniques to apply to create the brush of your choice!

For Whom is this class is designed for:

- Intermediate Level: Anyone who understands the fundamentals of Procreate

Ressources are available for download

- Sketches
- Colour palette

You'll need:

- An iPad
- Procreate, a drawing application.
