Boulevard is an aged title series with a movie melt feeling. Including ten slides for images or video, ten primary titles, ten little titles, celluloid burn, dust, and also light impacts, this layout has a solid grimy allure. And also, with its corrupted logo design closer, this project is best for videos, movie titles, and sharing the vintage video.

Blvd is very easy and also fast to tailor. Drag and drop your assets, transform the titles, and customize the look by selecting from various effects options.
