Aescripts Glasswork v1.1.2 (WIN): Introducing the ultimate video filter that revolutionizes your glass effects – presenting Glasswork! This exceptional plugin, developed in collaboration between Vincent Raineri & Gabriel Grenier, brings unparalleled realism to your footage with seamless GPU rendering. Elevate your visuals effortlessly by infusing many patterns and styles under your creative control through an intuitive interface.

Shatter all limitations and unlock your creativity with Glasswork, the ultimate plugin for achieving stunning glass effects in After Effects.

New Changes:

- Fix a crash when applied to an Adjustment Layer or Text Layer
- GPU Rendering: Experience super-smooth rendering thanks to seamless GPU integration.
- Intuitive Interface: Enjoy complete control over many settings, allowing you to effortlessly achieve the perfect aesthetic.
- Versatile Glass Effects: Quickly add glass effects, be it frosty or distorted, to enhance your footage.
- Pattern Options: Choose from various patterns, including Stripes, ZigZag, Rhombuses, Waves, and the new addition – Custom Patterns.
- Compatibility: Compatible with Windows and Mac (Intel+Silicon) systems that support OpenGL 3.3+. Not suitable for headless (no screen) machines.
- Trial Limitation: The trial version includes a watermark (red X) over the image, which can be removed by entering your license.
