GOGOi Vaporwave for Serum: Vaporwave is a collection of 60 artfully crafted serum presets that can be used for vaporwave or chillwave production. It is ready to use to create Synthwave, Chillwave, Future Electronica, New Wave, and Vapourwave and to incorporate Woozy Synth sounds to any track you want to add. The sounds can be used in Synthwave, Retrowave, Future Electronica, Synthpop, Chillwave, Future RnB, and Pop genres. Of course, you can use them in other genres to add 80s synth sounds into your music.
