The **Gaming Slideshow** introduces a Gaming Slideshow video template designed for creating compelling game intros and trailers.

How to use templates to improve the presentation of digital game slides with 3D elements in After Effects?

You can use "Gaming Slideshow" to design your project.

Featuring easy installation with minimal clicks and drag-and-drop customization, it is versatile and universally designed. The template offers a resolution of 3840×2160 and a duration of 0:45, requiring no plugins for use. It includes a video tutorial for guidance and is highly customizable to suit various gaming themes. Ideal for esports and professional gaming videos, this template enhances digital gaming slideshows with impressive 3D elements, ensuring a captivating and cinematic experience.

Package information

The After Effects project files for this template were last updated and published on June 25, 2024, and are compatible with After Effects CC.
