6 Fuji 2021 presets for Bloggers and Photographers Lightroom presets are designed for indoor and outdoor photography portraits, landscapes, travel photography, and others. Presets give your photos vintage tones and make them look more authentic. You can use all 12 presets to perfect your photos in one click. Each preset is created for different lighting and colors to ensure the best quality editing.

FUJI films are known for their slightly "cold" image, which is very white and almost all shades of gray. They are well-suited for mixed lighting, fluorescent lighting, and general lighting. They are sensitive to skin color and show it with special tenderness.

What should it include?

- 6 Lightroom Presets for Mobile Lightroom
- 6 Lightroom Presets for Desktop Lightroom
- 12 Presets total in this pack
- Lightroom Mobile desktop and mobile versions are both available.
- Works with JPG & Raw Images
