

## CData Drivers for Adobe Analytics v24.0.9060 (21 Oct 2024) All Platforms + License Key

2024-12-18 23:01:31   [label](#)   [我要反馈](#)   [下载页面](#)

facilitate seamless data integration by enabling users to connect live Adobe Analytics data with various reporting tools, databases, and custom applications through standards-based drivers. These drivers offer unmatched query performance and comprehensive access to Adobe Analytics data and metadata, seamlessly integrating with BI, analytics, reporting, and data visualization technologies.

In addition, **CData Drivers for Adobe Analytics** extend favourite ETL tools with Adobe Analytics connectivity, providing robust, reliable, and secure data movement capabilities. Users can connect their RDBMS or data warehouse with Adobe Analytics to facilitate operational reporting, improve performance, support data governance initiatives, and ensure disaster recovery preparedness.

Furthermore, by supporting popular database protocols like ODBC, JDBC, and ADO.NET, as well as wire-protocol interfaces for SQL Server and MySQL, these drivers enable easy connection to and management of Adobe Analytics data from a wide range of database management applications. They also offer integration with workflow and automation tools, allowing straightforward access to Adobe Analytics data from popular applications like BizTalk, MuleSoft, SQL SSIS, Microsoft Flow, Power Apps, Talend, and more. Overall, **CData Drivers for Adobe Analytics** provides a simplified approach to data integration, empowering developers to build higher-quality applications faster and facilitating efficient data management and analysis.

### This bundle includes the following elements:

- Adobe Analytics ADO.NET Provider
- Adobe Analytics BizTalk Adapter

- [Other](#)   [Web & Script](#)

- Adobe Analytics Cmdlets
- Adobe Analytics Data Cmdlets
- Adobe Analytics FireDAC Components
- Adobe Analytics JDBC Driver
- Adobe Analytics MuleSoft Connector
- Adobe Analytics ODBC Driver
- Adobe Analytics Power BI Connector
- Adobe Analytics SSIS Components
- Adobe Analytics Tableau Connector
- Excel Add-In for Adobe Analytics

## Key Features of CData Drivers for Adobe Analytics :

1. Enables seamless data integration with Adobe Analytics through standards-based drivers
2. Offers unmatched query performance and comprehensive access to Adobe Analytics data and metadata
3. Integrates seamlessly with BI, analytics, reporting, and data visualization technologies
4. Extends favourite ETL tools with Adobe Analytics connectivity for robust and reliable data movement
5. Facilitates connection of RDBMS or data warehouse with Adobe Analytics for operational reporting and performance enhancement
6. Supports popular database protocols like ODBC, JDBC, and ADO.NET, as well as wire-protocol interfaces for SQL Server and MySQL
7. Integrates with workflow and automation tools, providing straightforward access to Adobe Analytics data from popular applications
8. Simplifies data integration with a data-centric model for Adobe Analytics, enabling faster application development and efficient data management
