**Squares Geometric – 3D Lettering CM - 6096507:** Realistic 3D hi-res realistic, futuristic geometric, and square lettering renders (3000x3000 pix - however, the letters are a little smaller). Perfect for banners, posters, and advertisements for print or web projects.

- Transparent PNG lettering (3000x3000 pix, however, the letter size is a little smaller)
- Metallic and white styles
- 5 views are included

### How to design typography in 3D in Photoshop?

You can use "Squares Geometric – 3D Lettering".

### Where can I download the product?

After subscription, You can download it for free from here.

### What is Squares Geometric – 3D Lettering?

"Squares Geometric – 3D Lettering" refers to a style of typographic design where letters are constructed using a geometric pattern of squares to achieve a three-dimensional (3D) effect. This design approach combines the principles of geometric shapes, particularly squares, and the illusion of depth to create visually striking and modern lettering
