Eldar Zakirov - Realistic FUR Brushes:

The Realistic FUR Brushes set for Affinity Photo & Designer includes 28 meticulously crafted brushes designed for creating realistic fur in digital artwork.

These brushes are ideal for painting animals, furries, and other fluffy creatures. The creator developed them after years of practice in achieving photorealistic fur textures and has adapted them for multiple software platforms, including Affinity.

The collection features 20 remastered brushes from previous sets for Photoshop and Clip Studio Paint, along with 8 new brushes. Some brushes designed for side-view fur rendering come with dual options for both left and proper hair growth directions, adding three more brushes to the set.

The product includes:

- 28+ FUR brushes in the file format "Realistic FUR by Eldar Zakirov.afbrushes."
- Tips and Recommendations PDF with guidance on brush usage and installation.
