

## 15 Golden Hour Lightroom Presets By MEGASETS

2025-02-10 17:14:29    [label](#)    [我要反馈](#)    [下载页面](#)

### I INSTANT - DOWNLOAD

James is the creator of MEGASETS and photographer at Who Shot The Photographer. My presets were inspired by VSCO Presets. They are simple, functional, and efficient.

Lightroom presets make it easy to transform your photos to professional standards with just a click. They can be used in Adobe Lightroom 5 or higher, with some presets having Photoshop Presets!

### INCLUDED FILE

Sun Kissed was created to enhance the mood in your stunning sunset photos. These presets have 5 bases presets that can be used to match a variety of sunrise and sunset scenes. Rainbow wash is a great choice for subtle yellow and blue tones. Perhaps the stunning sunsets you desire are made with Solar Rose's deep pinks and ambers.

### This package contains:

- Cream Twilight Lightroom & Photoshop Preset
- Dusk DreamLightroom & Photoshop Preset
- Rainbow Wash Lightroom & Photoshop Preset
- Preset for Solar Rose Lightroom & Photoshop
- Soleil Lightroom & Photoshop Set
- These files can all be compressed into one ZIP file

### LIGHTROOM INSTALLATION GUIDE

1. After extracting and downloading the presets to your folder of preference, open Lightroom by right-clicking on the folder where you wish to import them. Select the downloaded preset and click 'import'.
2. First, adjust the exposure and color temperature of your photo before you apply the preset. After applying the edit, you may need to adjust the exposure.

All presets are compatible with Lightroom 5-6 (CC), Photoshop, and all RAW and JPEG image types.

ADOBE CAMERA Raw (PHOTOSHOP), INSTALLATION GUIDE.

Please download the ACR presets from us to install in Photoshop. Unzip them and place them in this location:

\* Mac(user)/Library/Application Support/Adobe/Camera Raw/Settings

\* Win (user)/Application Data/Adobe/Camera RAW/Settings

Camera Raw does not support folders so make sure to only copy preset files (.xmp).

Access the Library location on Macs running Lion or Mountain Lion. (Library is hiding by default). You can show Library by holding down the option key and selecting "Go" from the Mac Finder menu.

If you still have trouble finding the Settings folder, you can save it within ACR and then search for it on your own computer. For easy access, create a shortcut to the "Settings" folder in your sidebar or on your desktop.
