Brush Wind Transitions for AE VH-53685890:

Brush Wind Transitions for After Effects is a template that offers elegantly animated brush-style transitions that mimic the flow of air.

Each transition is customizable with a color controller, making it easy to adjust colors and effects.

Ideal for adding smooth, hand-drawn transitions to presentations, social media videos, art projects, and more, these abstract and pastel elements enhance the visual appeal of your work.

The template supports both 4K and Full HD resolution and is compatible with After Effects 2021 and newer versions.
