

Blender Market - Quick Decals V2.1.0

2025-02-10 16:48:32 label 我要反馈 下载页面

Blender Market - Quick Decals V2.1.0: Easily enhance your scene with quick texture decals, offering functionality similar to Unreal Engine's decal system. This intuitive tool provides a straightforward interface for seamlessly wrapping decals onto objects in your Blender project.

You have the flexibility to use any image supported in Blender. If your image lacks an alpha channel, you can utilize the "create alpha channel" functionality to generate one effortlessly. Additionally, the custom alpha panel allows you to fine-tune transparency levels, enabling you to achieve the desired effect for your decals.

This tool makes wrapping your decals onto objects simple and efficient, empowering you to enhance your scene with detailed textures and visual elements.
