With **Ouroboros** two it is possible to create numerous strokes on a single route in After Effects.

Ouroboros 2: With Ouroboros you may make multiple strokes on one Route in After Effects. This may quickly produce some really detailed looking stroke consequences on your own scene. I awakened with Remco Janssen (who made Expressionist) to make this new edition.

After effects plugins normally Price approximately \$30 but Ouroboros will stay a gift to the community. Should you find it useful and wish to spend, you can name your own cost or consider it as purchasing us lunch or coffee. When you support us through comments --it makes it possible for us to keep making the instrument better as time passes.

- Create based Line, Square, Circle, and Triangle.
- Produce numerous strokes on a single path.
- Color multiple strokes using a single color controller.
- Establish an arbitrary Stroke Width for every stroke.
- Maintain Stoke Width when initial path scales.
- Establish random Opacity for every stroke.
- Reduce every stroke individually.
- Decide on a random length and countertops on the trail.
- Reduce all of the strokes using the initial stroke.
- Connect the Start and End into the stroke.
- Delay the cartoon of every stroke as time passes.
- Randomize the timing of postponed animations.
- Insert a continuous rate to the strokes.
- Add an arbitrary rate to every stroke.
- Keyframe the rate of all of the strokes.
- Insert Dots on the beginning and end of every line.
- Change stroke management.
- Change cover and combine of strokes.
- Change the seed.
