

## Unreal Engine - Techwear Girls (Engine version 4.19- 4.27, 5.0- 5.2)

2025-02-10 16:49:33   [label](#)   [我要反馈](#)   [下载页面](#)

**Unreal Engine - Techwear Girls:** Introducing the adorable Techwear Girl 3D model, featuring multiple clothing and hairstyle options, Apple Blendshapes for lifelike facial expressions, and an Epic Skeleton for easy integration into Unreal Engine projects. With a low-poly design and fully rigged functionality, this character offers versatility and customization possibilities. Each model variant boasts different polygon counts, ensuring flexibility based on project requirements.

The rig is based on the UE4 Mannequin skeleton, allowing seamless animation retargeting. Additional bones, including breast, eye, and hair bones, enable realistic physics simulations and diverse animations. The model has been rigorously tested with various animation sets, ensuring compatibility with popular motion capture libraries and gameplay scenarios.

Enhancing facial realism, the character includes 52 calibrated Apple Blendshapes, ideal for facial animation applications such as LiveLinkFace and VRChat avatars. The modular design enables easy customization, with the ability to add or remove clothing and accessories as desired. Please note that the body texture is censored, and adult parts are not modeled or rigged. The model comes with Material ID maps for easy color customization of skin, eyes, hair, and outfit parts. High-resolution 4K textures ensure stunning visual fidelity, packed for optimized performance in Unreal Engine.

Included in the package is an Unreal Engine project with support for version 4.19 and above, complete with 3rd person-standard animations and wind simulation for hair. While blueprints are not included, Material Instances with MatID maps for color change are provided for easy implementation. For realistic physics effects, it's recommended to use the KawaiiPhysics plugin. Ideal for developers seeking a charming and customizable character for their tech-wear-themed games or projects.
