Save the World Ocean - AE Project VH-33749342: It is ideal to create original slideshows and photo presentations in the original style of the ocean. The project should draw the interest of everyone to global problems such as plastic pollution, warming, pollution, and more.

Save the WORLD OCEANS

The issue of marine pollution is becoming a major issue in the present world. Marine trash includes every manufactured product—mostly plastic - that is disposed of at sea. The storms, pollution, and poor waste management are all factors that create garbage with 80 percent of it originate from land sources.

We hope this template will raise awareness of the challenges that result from global warming. changes in the direction of the gulf stream, and the pollution of oceans and natural resources. The template is easy to create: just insert images or text, then click to render.
