Software

You can speed up your eLearning writing process as you effortlessly copy and paste characteristics of various objects or components within your course. Choose an object and select the option to duplicate and copy the interaction, appearance, or animation to another object in a flash.

**Panel for interactions that are simple**

Making your writing time shorter by developing games and immersive experiences is now easier as ever before. Explore the intuitive interaction panel, select among a range of triggers, create conditions, and then choose from a wide range of actions that you can be assigned for the trigger. Try the interaction in only one click. Let the action begin!

**Accessibility defined**

Give equal opportunities to develop professionally by creating an environment that is level for those with disabilities. Create eLearning content easily that conforms to accessibility standards like Section 508 or WCAG 2.1. You can ensure the accessibility of content by creating alternative text formats, clickable areas that allow access to keyboards, and much more.

**Simple closed captions**

Create courses that are accessible standards instantly by adding closed captions to audio and slide videos. The timeline bar lets you select the timeline on where your captions will be displayed. The captions can also be improved by adjusting how they appear and the location they appear.

**Modern text-to-speech technology**

Keep your learners glued to your content while you convert the text into high-quality speech in only a couple of clicks. Do you need to alter the text? Click once to refresh the audio. Select from a range of multi-accent, non-mechanical, or multi-lingual voice choices.

**Native audio editing**

Reduce time and costs by easily and quickly editing your audio in Adobe Captivate. Upload audio tracks from either your computer or the library of assets, record your voice, or create voiceovers using captions for text in only several clicks. Make your audio perfect by cutting and pasting captions, adding captions, eliminating backgrounds, looping, and many more.

**What is Adobe Captivate?**

Adobe Captivate is a software application developed by Adobe Inc. that is used for creating eLearning content, including interactive eLearning courses, software demonstrations, simulations, and quizzes. It is a powerful tool for designing and authoring multimedia-rich, responsive eLearning content.
