HUD Medical Interface DNA - AE Project VH-38147713: HUD Medical Interface has been specifically designed to be a medical interface that is used for DNA. It features three Pro HDUD Screens as well as greater than 40 HUD components. Every display is filled with elements from HUD. The designs are designed by using 40+ HUD Elements which can be created in After Effects with shape layers. The included video tutorial shows you how to create it fast! It's professionally created and well-organized.

Free Fonts Link is in the Help File.
