Gfx plugin details of Premium LUT Bundle and 4K Grain Digital Remaster

The product is in the **LUTS category**, for more information about this post you can click on the home page link in the sidebar. To search for similar products to Premium LUT Bundle and 4K Grain Digital Remaster,

- Encoded Employing a time-based algorithm
- LUTs For different kind of shots
- Way Ahead of classic marketplace LUTs/Filters
- Designed To get high-production to noninvasive filmmaking
- Literally Cuts time in half

What's different about those LUTs?

LUTs which are thrown around in the title of"cinematic" is Made by grading one shot. This means if you apply it to another Shooter, it is no rocket science which you are likely to fail in attaining that "cinematic" look.

Thus, we made LUTS dependent on the hour of this day.

Detail supply of daylight shots, day shots & Night shots stays respectively optional through different cameras, Places, and budgets. With this simple logic, we split LUTs into distinct Categories depending on the hour of this afternoon: Sunlight LUTs, Sundown LUTs, Dusk LUTs, and Indoor LUTs.
