

Be Bold Presets by Twig & Olive (LRTemplate)

2025-02-10 16:42:47 [label](#) [我要反馈](#) [下载页面](#)

Twig & Olive's ACR Presets and Be Bold Lightroom are perfect for photographers who don't mind experimenting with deep tonality. You can be bold with presets that give you deep blacks and caramel undertones as well as light to medium amber colors. The multi-variety set includes our black and white action sets that provide a complete grayscale palette, from silver to graphite. These preset work best with images that are in the open sun or at golden hour, as they do with all our presets.

This set contains:

B+W Tortuga

Compatibility and Instructions

This product is only compatible with Adobe Lightroom, Lightroom CC, or Lightroom Classic CC. It is not compatible to Adobe Photoshop Elements.

Presets are intended to speed up your workflow by providing a consistent starting point. Without the ability to control white balance and light, it is very unlikely that you will be able to make 1-click edits. It's possible that you will adjust exposure and white balance for each image.

Presets only make up a small portion of the final image production process. Presets are only a small part of the final image production process. The time of day, gearing choices, and angles will have a greater impact on your images than any preset. These are all factors to consider if you are unhappy with your edit.

You can also view additional examples on our blog.
