Aescripts Expressionist:

Expressionist enhances the expression workflow by providing essential IDE features like syntax highlighting, line numbers, and multiple cursors, making it easier to write and manage expressions. It allows users to quickly apply expressions to multiple properties and includes inline error handling for improved debugging. Key features include a monospaced font, word wrap, active line highlighting, and a variety of editing shortcuts for faster workflow. Additionally, it offers adjustable font size, automatic bracket closing, and smart indentation to streamline the expression-writing process further.
