TikTok Banners (Videohive 39991778) - AE Project: After Effects template to make a fashionable promotional video for the TikTok channel, as well as an opener on the channel on YouTube, Vimeo, or any other social network on the internet. Present your profile or product with this intro - add your name and the username of your channel, your most popular hashtags, and then the most popular videos.

Use bright colors, innovative and engaging text animations, and designs such as text tables. They appear floating on the screen and highlight your message. These elements help make your video more engaging, fun, and encouraging.

Text holders display how your films appear on screens as they would be seen in the real world. It's possible to show your content exactly how it is used. It's the best way to present your channel's content to advertisers or create an overview of your efforts on TikTok.

- Color control
- 4K
- Fast render
- 100 % After Effects
- After Effects CC18 and above
- No plugins required
