### Pixel Film Studios - FCPX Colorist V1.1 for Final Cut Pro X (macOS):

Introducing the FCPX Colorist, a game-changer for Final Cut Pro X users seeking professional-grade color grading tools. Now, editors can effortlessly fine-tune curves, hues, saturation, and color levels without the need for additional software.

#### Modular Color Grading Tools:

- Each FCPX Colorist Tool seamlessly integrates into Final Cut Pro X as an individual filter in the Effects library. This modular setup empowers users to layer, combine, and rearrange multiple filters, unlocking endless creative possibilities for their footage.

#### Custom Curves in Final Cut Pro X:

- With FCPX Colorist, curve color correction becomes accessible within Final Cut Pro X. The Custom Curves Tool provides precise control over tone and color adjustments across the Red, Blue, and Green channels. Utilize curves to achieve color balance, craft dynamic looks, manage light clipping, or fine-tune contrast with ease.
