

CGCircuit – PBD Cloth Tearing in Houdini

2025-02-10 17:11:44 [label](#) [我要反馈](#) [下载页面](#)

In the online training course will the student will learn to make use of Houdini to develop a solver which is able to model soft bodies using the grains solver that is the default. In this instance, we'll utilize this solver in order to cut apart the cloth.

Who are you directing this tutorial too?

This course is specifically designed for those with a moderate understanding of Houdini and a little familiar with using VEX scripting.

What do I get to learn from the tutorial?

After completing this course, students are expected to be able to design and manage attributes that can alter the behavior of soft bodies, make detailed and real simulations of tearing cloth, and become familiar with PBD techniques being utilized in the present in many television and mainstream films.
