Aescripts PrayMitive:

PrayMitive empowers artists with an integrated 3D modeling toolkit, featuring 14 versatile primitives like spheres, cubes, and toruses for precise and customizable designs. Unlock endless possibilities with Smooth Booleans, enabling seamless union, subtraction, and material blending for dynamic forms.

Master materials with features like diffuse, specular, glossiness, and rim light offer unparalleled control over color, reflection, and edge effects. Elevate designs further with modifiers like Waves, Ripples, Twist, and Bend, allowing for organic and animated transformations.

PrayMitive eliminates the need for external programs, delivering a complete 3D modeling experience directly within After Effects. It's the ultimate creative tool for crafting stunning static and dynamic visuals.
