HUD Medical Ribs (Videohive 53687975) - AE Project:

The HUD Medical Pack is a thoughtfully designed After Effects template created specifically for medical interface designs. It features a professional HUD display screen along with more than 30 HUD elements, all neatly organized into folders for easy access.

The vector-based shape layers make customization and resizing straightforward, and you can adjust colors throughout the project globally or locally using the Smart Color Controller.

The template, which works with After Effects CC 2020 and newer versions, supports 1920×1080 resolution, requires no plugins, and includes 3D objects in transparent PNG format for effortless integration into your footage.
