2025-02-10 17:13:59 label 我要反馈 下载页面

An assortment of 17 Black & White presets as well as 35 tools that will accelerate your Lightroom and ACR workflow. These are exact presets that I use in my personal workflow and have helped speed up my retouching process by a lot.

Each preset comes with a standard version, which is a bit matte, and a clear version.

This set is intended to be used with images shot indoors, but it can be used to shoot outdoor images too. If you take pictures outdoors frequently, you'll be interested in our outdoor B&W set which takes care of all the green levels, and truly creates images that sparkle.
