#### INCREDIBLE SONIC BACKDROP

The PRAIRIES library obviously also will come with a generous assortment of wind records: gusting, blustering, gently blowing, breezing, roaring through the normal vegetation of the region. As special attributes, the library retains weather phenomenon records of marijuana fire and distant thunder rolling in.

#### GET THE SURROUND EXPERIENCE

Surround ambiances would be the nearest approach to the character's authentic and original vibrant sound. After given the chance to unfold their authentic acoustic capacity, these fantastic 5.0 surround recordings will certainly save you from accepting some less later on.

#### INCLUDING STEREO VERSION

Maintaining the material of this fantastic stereo version, you will obtain the complete spectrum of those interesting regions plus a gain in flexibility and approaches to form the experience, taking your audio design to a much higher level!

#### WHAT WE RECORDED

PRAIRIES is your sixth SFX library out of our collection of top quality and wonderful character records by Emmy-winner and character recording ace Gordon Hempton. Hempton has searched the world for at least three decades to capture character at its most pristine.

With this group, he ventured out to the broad fields of the American prairie to successfully reunite with this superb and intriguing sound material.

#### WHAT'S SO SPECIAL ABOUT THIS LIBRARY?

To swiftly dispel any doubts in this stage: None of that prairie SFX reproduces the "Winds Of Nature" library. PRAIRIES supplies a brand-new, unique choice of open-field end recordings along with native plants alongside the distinctive weather

phenomena unique to American prairies. When designing your surroundings for a film or game, credibility an integral aspect concerning immersion, and PRAIRIES delivers that.

ENVIRONMENTAL ACTIVIST & EMMY-WINNER

Each character sounds from the QUIET PLANET Nature SFX series have been listed by Gordon Hempton, The Audio Tracker®, Emmy-winner, writer of One Square Inch of Silence, and ecological activist. Coupled with habitat loss, species extinction, and first and foremost unbridled sound contamination, Hempton has turned his focus towards saving the planet's few remaining natural amphitheaters.

THE Maximum APPRECIATION FOR MOTHER EARTH'S VOICE

Gordon Hempton cares very deeply about silence. As The Sound Tracker®, he's circled the world three times within the previous 35 years in pursuit of Earth's rarest character sounds -- sounds that can only be fully appreciated from the lack of manmade noise. These records are offered via BOOM Library's QUIET PLANET series.
