Henbu V2 LUTs 2020!

I'm very excited to announce my new V2 Lut package 2020!

7 habit luts created to operate with cameras! Including many LOG, HLG, and Cine Picture profiles.

I've included all of the creative colors and altered the colors, so for the majority of the footage, you may just have to correct the saturation and exposure!

This package includes:

- Aqua
- Fire
- Pine
- Wave
- Log Fire
- Log Pine
- Log Aqua

Be sure to play around with the seriousness of The LUT as most of the shots are different!

These will operate in Premiere Pro CC, DaVinci Resolve, FCPX, AE. These work in Photoshop CC for editing your photographs.

Thanks to all of you who support? Work, as of you guys I will keep on creating articles.
