Datacode FOCUS Techno Risers and FX WAV: Datacode Presents FOCUS: Techno Ripsers and FX! Supercharged, high-energy FX package focused specifically on Rise (Uplifter) as well as Fall (Down) FX, and it contains several powerful Impact FX! This FX was meticulously designed raw to suit the darker, underground sounds of Techno, Tech House, and other genres!

Gfx plugin details of Datacode FOCUS Techno Risers and FX WAV

The product is in **SOUND EFFECTS category** , for more information about this post you can click on the home page link in the sidebar.

This FX pack can create the well-known tension or the anticipation-release effect, which is vital for many kinds of club music. Producers require a certain element to produce dramatic and energetic builds before dropping. Everybody knows the euphoric sensation that comes with a build drop is executed well and is slammed onto the drops with all enthusiasm. The build generates excitement, even if the drop is a bit slammed and is reduced to just the bass and kick groove! Most club tracks can be the difference between success or failure based on creating a solid building and dropping.

It includes a vast selection Of 16-Bars Long Rise FX and eight Bars of long fall FX. Both were created to be large and deep and have ultra-low subs that are fully functional to provide maximum energy and anticipation during your track's breakdowns and builds. It includes a wide range of detuned saw risers, Filtered, Modulated Drone & Alarm FX, Lush Whitenoise Sweeps, and more.

- Tempo 130 BPM
- 24 Bit WAV
- 59 Riser FX
- 166 Total Samples
- 57 Down FX
- 50 Impact FX
