

Nova Presets by Meridian (XMP)

2025-02-10 16:40:02 label 我要反馈 下载页面

Nova Presets was developed with the assistance of many talented photographers around the world. Nova can transform any image to soft pastel-like colors when combined with warm bronze hues. Anyone can use the collection to create a unique copper-like color palette. Enjoy the many examples below, which were created by artists who helped us optimize this preset.

The NOVA presets are based on a trend in our community. They allow for moody and warm edits, while still maintaining skin tones.

NOVA can transform any image in soft pastel-like tones when combined with warm bronze hues.
