The Color Presets are motivated by my All-time favorite Film Simulation: Favorable Film. This Exceptional Look comes in the Ricoh GR, GRII & GRIII. I generated Sounds that are predicated on the Aged Favorable Effect (GR, GRII) & the brand new (GRIII). They also work well using Fujifilm Raw files along with other cameras.

My Black & White Presets are predicated in my next favorite Film Simulation: Fujifilm Acros.

The Preset Pack includes 2 Versions. One for your Present Lightroom Versions (XMP documents ) and you using the obsolete .Irtemplate documents.
