Julia and Gil – Signature Style Portrait Presets

2025-02-10 17:15:29   label 我要反馈   下载页面

Each photoshoot will be different, don't you think? You already realize that the outcome of your photoshoot depends on how you shoot as well as the type of light you like. The photos we took were captured in the shadow or backlight since that's the way we like to shoot. Be aware that presets can be the perfect place from which you can begin, but in some cases, you will need to adjust brightness, white balance, or something else.

Gfx plugin details of Julia and Gil – Signature Style Portrait Presets

The product is in the **Lightroom category**, for more information about this post you can click on the home page link in the sidebar.

How can I access these presets?

We've got you covered! Within a few minutes of purchasing our system, we'll send you an email with a link to download along with the invoice. Make sure to make sure you check your spam folder! Keep your email in order to can access the download link in case you have to download the files in the future.

How do set up the settings?

Very simple! You'll receive a video on how to install and utilize the presets. Be aware that you are only able to utilize the presets for desktop.

What software do I require?

At the very least Adobe Lightroom 4 or later. If you like Photoshop you will need Adobe Camera Raw CS6 or later. You'll get the lr.template files, and of course the XMP file for Lightroom Classic CC.

Do I have to use these presets on any camera manufacturer?

Sure! Every single one of our presets has been tested on a variety of RAW files from a variety of photographers. Naturally, the appearance may vary, but you already know that.

What are tools?

Good question! The Tools can make it easier to save time. Just one click can modify the grain, tone as well as saturation!
