Unity Asset - City Low Poly Style v1.0:

Introducing LowPoly Megapolis, your ultimate asset pack for crafting vibrant urban environments in simulator and tycoon games.

Featuring 171 meticulously crafted low-polygon models, this collection offers a comprehensive array of assets to bring your bustling metropolis to life. From towering city buildings and modular architectural components to street decorations, props, vehicles, foliage, and more, the possibilities are endless.

- Streamlined organization: Easily navigate through the diverse range of models with categorized classification for seamless scene management.
- Modular flexibility: Construct buildings of varying shapes and sizes using the versatile modular architectural elements provided.
- Charming low-poly textures: Immerse players in a visually captivating world with endearing textures that evoke a sense of nostalgia and charm.
- Efficient polygon counts: Maintain optimal performance without compromising on visual quality, thanks to the low-polygon design of the models.
- Diverse urban assets: Explore a vast selection of urban-themed models, each adding its own unique flair to your cityscape.

Whether you're creating a bustling downtown district or a serene suburban neighborhood, LowPoly Megapolis equips you with everything you need to realize your vision and create a memorable gaming experience.
