Blender Market - AutoSmear v2

2025-02-10 16:45:32　　label 我要反馈　　下载页面

Blender Market - AutoSmear v2: Introducing AutoSmear, the essential Blender addon designed to revolutionize your object manipulation process! With AutoSmear, you can effortlessly and automatically apply smears to your objects, unleashing a new level of creativity. In this latest version (V2), we've made significant enhancements for an even more intuitive and powerful user experience.

Check out our tutorial video on my YouTube channel for a more in-depth understanding of AutoSmear's capabilities. Don't forget to subscribe for regular updates and additional content.

AutoSmear is your go-to addon for automating smearing processes in Blender. Elevate your creative workflow with this indispensable tool – download now and experience the next level of 3D object manipulation!

- Smearing Methods Overhaul: We've completely revamped the smearing methods for smoother and more dynamic results.
- Entire Smear Group: Explore the all-new Full Smear Group, offering both duplicates and curved smears in one comprehensive package.
- Add Mesh Menu Integration: Access AutoSmear seamlessly through the add mesh menu, enhancing accessibility and workflow efficiency.
- Quality of Life Additions: Enjoy cleanup tools to streamline your project, ensuring a clutter-free and organized workspace.
- Reset Smear Button: Experience convenience with the reset smear button in the N panel's tools section, allowing you to undo and refine your smears effortlessly.
