1970s Lightroom Presets Collection CM - 6390641: The 1970s Lightroom Collection adds vintage tones to your images.

We test them on more than 100 iPhone images to ensure the best results for you.

High-Quality Presets, Excellent to use for family Portraits, Selfies, Bloggers, Indoor and Outdoor photos, Travel Engagements, Wedding shoots, landscapes, easy to use.

One-click Lightroom Preset that will give your Memory images a more cohesive and appealing look and gets you started on the path to creating stunning photos!

- Five DNG Lightroom Presets (IOS and Android Lightroom free app)
- 5 XMP Lightroom Lightroom Presets (Desktop Lightroom app available for Windows or Mac)
- Installation instructions (pdf file)
- Compatibility with Lightroom both Free and Paid Versions
- Compatibility to work with JPG & Raw Images

Important: Keep in mind that each preset works differently for each image based on several elements like lighting or white balance, and so on. It is highly recommended to use an exposure and contrast slider for the best results!
