Blender Market - Next Street v3.3.7c:

"Next Street - Road Generator" is a comprehensive tool for designing and customizing urban environments in Blender.

It offers features for managing sidewalks, street profiles, texturing, and scene optimization, enabling the creation of realistic street scenes.

Key functionalities include a simulation toggle for dynamic animations, viewport proxy for smooth navigation, and animation baking for efficient workflow.

The tool also provides camera culling with adjustable offsets, various toggle options for sidewalks and guardrails, and extensive customization for sidewalks with materials, lights, benches, and trees.

Additional controls allow for realistic environmental effects, such as wetness, water height, and snow coverage, further enhancing scene immersion.
