IRedSoft Batch It Ultra 6.60:

Batch It Ultra is a comprehensive batch image processing tool, redesigned for the latest Windows OS and available in both 32-bit and 64-bit versions.

Key features include batch resizing with various methods, batch format conversion supporting numerous image formats, and 48-bit color depth for TIFF images.

The software offers a range of image effects, batch renaming, text captioning, watermarking, and contact sheet creation.

It also includes backup options, customizable settings profiles, and multiple methods for loading images.

Batch It Ultra 6 comes in three editions: GUI, Command Line, and Server, with command line and server versions supporting automation and integration with other programs.

The software is compatible with 64-bit versions of Windows 10, 8, and Windows Server, requiring at least 1GB of RAM and storage.
